© 1996-2014, Amazon.com, Inc. or its affiliate Girlfriends & Boyfriends Mod 1.16.3/1.15.2 adds a companion for Minecraft, ficante friend or wife, you will find it with this mod, this is a feature added OreSpawn Mod. Colleagues are invaluable to Minecraft. Unlike real life, these girlfriends and lovers will actually help save your ass! They are particularly fond of killing creepers, and are usually fearless. Maybe a little fearless. Your mission is to take them armor, so be protected! Have a girlfriend or friend in Minecraft with this awesome mod. To get your girlfriend, you should give a red rose to a girl, can sometimes be more than just a rose, then it is better to have more than one, a dozen maybe! For your partner to follow you, you should hold a red rose, your ideal companion throughout the history of Minecraft, to separate your girlfriend you have to marry Dead Bush. To get a friend, the process will be completely different, it's funny how they did tame a man, haha, all you have to do is cook something for him, can be broken cooked meat or boiled peasants, anything, usually all work. The path to a person's heart is through the stomach! This sentence fits perfectly. Minecraft sometimes feels lonely and there is a mod out there to change and it is a Minecraft family mod! This real life family simulator mod has all the things you need to make yourself a family in Minecraft! You can marry someone, find a job and even become a city killer! This mod based off real life in Minecraft. Get married, have a family, get a job, and run your village and hire villagers to do everyday work in Minecraft. Villagers are either male or female, who look and behave like humans. You can interact with them in many different ways, such as chatting, asking them to follow you, asking for favors, and trying to be romantic. You can build relationships (good or bad) with villagers. Your character will develop your role in the village depending on how you decide to take them to act. You can marry villagers if you get your relationship high enough. Married couples can have children who will do a lot of work for you. In single player and LAN, you can take other players and have kids with them too. Hardcore mode gives you top secret features. Play the mod and find out what it is! You should install this mod if you are a fan of games like SIMS and other life simulators, or just really like to develop relationships with people. And the best part? You can still interact with villagers as you might in unmodded Minecraft! Stores and other interactions are still operating normally. Features: Interaction with brand new villagers Adds 13 new professions. More than 500 different skins. Each villager is a man or woman with a unique name. Interaction menu that allows for a high degree of control. Talk to villagers, tell jokes, give away gifts and more. Trade using the default Minecraft trading system. Build a relationship and marry every villager. Have children to have a baby boy or a girl with a villager you marry. Babies grow up into children who can do chores. Kids can mine, farms, cut trees, and hunt for you. Over time, children grow into adults. Create your own stories of villagers living their lives as you play. Your children can grow up, get married and have children of their own. Communicate with villagers who have a large number of personalities and moods. Watch your villages grow before your eyes. Villagers will communicate with each other, get married and have children. Play reimagined Minecraft Multiplayer Marry and have kids with other players in multiplayer. MCA easily integrates into the server environment. Full control over the mod function for server administrators. Screenshots: Interaction Children's Work - Jobs - Mining Story Story Crafting recipes: Wedding Ring: Craft a wedding ring to marry a villager. Remember, you can craft an engagement ring before the wedding to get gifts! Rose gold can also be used to craft wedding rings. Engagement Ring: Craft and gift the engagement ring before donating the engagement ring to get special gifts from nearby villagers. Rose gold can also be used to craft engagement rings. All shaped diamond rings can be created in this way as well. Matchmaker Ring: Crafting two of these rings allows you to arrange a marriage between two villagers. Tombstone: Craft these to write as a sign. Pay tribute to fallen friends or family members. Whistle: Crafting a whistle allows you to call your husband and children in your place when/if you ever get lost. Divorce Papers: Craft these in order to divorce your husband without the need for a priest nearby. To use them, select your spouse, select Gift, and then give them that item. Villager's Bed: Craft these and the villager will sleep in them at night! Replace the carpet with a red, blue, green, pink or purple carpet. Diamond Dust: Diamond dust can be mixed with dye in order to produce colored diamond dust. Other than that, it's not very useful! Colored Diamond Dust: Mix dust with any color to produce colored diamond dust. Colored Diamond: Melt any coloring colors in order to create a colorful diamond. Jewel Cutter: A jewel cutter is used with diamond and molded molds to craft diamond shaped molds. The heart form a small form of oval forms square mold triangle form star shaped diamond: a shaped diamond can be used in place of a regular diamond in the formation of an engagement ring. Needle: The only purpose of the needle is to use it in the formation of the needle and chain. Needle and string: The needle and string is used to create the fabric. Every time you use it, the needle and string are damaged. You can use one needle and string to create up to 16 cloth. Fabric: Fabric is currently only used to craft a New Outfit. New Outfit: You can gift a new outfit to your kids or husband and they will change their clothes. Requires: Minecraft Forge RadixCore How to install: Make sure you have already installed Minecraft Forge and RadixCore. Browse to the Minecraft folder. In Windows, open Run from the Start menu, type %appdata%, and then click Run. On the mac open finder, hold down alt and click go then library in the top menu bar. Open the App Support folder and search for Minecraft. Instead of the mod you just downloaded (.jar) to the Mods folder.
